The ISWI Secretariat Website – some recent stats

(the following information comes from Mitko of Bulgaria, who maintains this website)

The data above reveals how many visitors we are getting (in months: Jan 2013 thru July 2014).

This map shows where the visitors are coming from – during the past two weeks.

Mitko's comment:

We see that the number of visitors has decreased recently, but still we are popular throughout the world.
