

## Announcing the AGU Joint Prize for Space Weather and Nonlinear Waves and Processes Prize

- **Deadline: 15 June 2013**
- The prize consists of a \$10,000 monetary prize, an announcement in Eos, and an award plaque presented at the AGU Fall Meeting in San Francisco during the award presentation year. The prize is made possible through the generosity of AGU members, Bruce T. Tsurutani and Olga P. Verkhoglyadova.

**In 2013, the award recognizes an individual for their scientific contribution to the field of space weather** (the 2015 award will recognize an individual for their scientific contributions to nonlinear waves and processes); the contribution can take the form of a single significant and cutting-edge project or a lifetime of achievement

- Eligible nominees must be current AGU members working in the field of space weather
- For more information and eligibility requirements see:
