 : Re:  
 : A great website on  
 : Heliophysics.

Dear ISWI Participant:

This is a really great website for those of you who want to get involved in heliophysics in a serious way:

: <http://www.vsp.ucar.edu/Heliophysics/>

This is the intro text of this website:

\*\*\*\*\*  
 \*  
 \* What is Heliophysics?  
 \*  
 \* Heliophysics is all of the science common to the  
 \* field of the Sun-Earth connections. This fast-developing  
 \* field of research covers many traditional sub-disciplines  
 \* of space physics, astrophysics, and climate studies.  
 \* The NASA Living with a Star program, with its focus on  
 \* the basic science underlying all aspects of space weather,  
 \* acts as a catalyst to bring the many research disciplines  
 \* together to deepen our understanding of the system of  
 \* systems formed by the Sun-Earth connection.  
 \*  
 \* Two programs have emerged from this effort:  
 \* 1. Heliophysics Summer School  
 \* 2. Jack Eddy Postdoctoral Fellowship Program  
 \*  
 \*\*\*\*\*

N.B. : This newsletter will be closed for one week so that the editor can attend the "ISWI Steering Committee Meeting" in Vienna.

Warm and hearty cheers from Kyushu,  
 : George Maeda
