 : Re:
 : Mysteries of the Sun
 : (a great NASA website)
 :

Dear ISWI Participant:

It has been brought to my attention that NASA has a superb website on the "mysteries of the sun" :

: <http://missionscience.nasa.gov/sun/>

***** text from NASA *****

: Mysteries of the Sun

Welcome to the Mysteries of the Sun. This unique NASA resource on the web, in print, and with companion videos introduces Heliophysics: the study of the Sun's influence throughout the solar system and, in particular, its connection to the Earth and the Earth's extended space environment. Learn about topics such as Space Weather, Solar Variability, the Heliosphere, Earth's Magnetosphere, and the Earth's Upper Atmosphere. Come and explore our Sun!

The ISWI aspect:
 This single website shows a collection of truly beautiful brochures and movies concerning our ISWI issues with Earth, Sun, and everything in between (particularly space weather). The site provides lots of educational material for the classroom.

Cordially and faithfully yours,
 : George Maeda
