Dear ISWI Participant:

In ISWI Newsletter Volume 3, Number 34 (two issues ago), I circulated the programme brochure for a space weather seminar that took place in Korea last month at KASI. For that event, KASI produced some new space weather posters ---- which I attach for your inspection.

Giant-size versions of these posters are on display at the United Nations in Vienna.

Tomorrow, I will circulate the most recent report from the Callisto Project, which originated in Switzerland.

Also, there is a new organization in Japan called the "Japan Space Weather Association", or JSWA for short. It is pronounced "Jazz Wa". Details of JSWA will appear in a future issue of this newsletter, so stay tuned Ladies and Gentlemen !

Eternally cordially yours
